134TH AIR REFUELING WING

MAR 2018

In Memory of Col. Timothy Dearing

Official photo of Col. Timothy Dearing, Base Commander of the 134th Air Refueling Wing 2004-2011. (U.S. Air National Guard photo by Senior Master Sgt. Kendra M. Owenby, 134th Public Affairs)

Col. (Ret.) Timothy Dearing passed away unexpectedly on Mar. 29. After holding multiple appointments in the Kansas Air National Guard and completing a Desert Shield/Desert Storm deployment with the 1701st Strategic Wing as Chief of Mission Development, Col. Dearing came to McGhee Tyson Air National Guard Base in 2002 as the 134th Logistics Group Commander. He then moved on to serve as the 134th Air Refueling Wing Commander between 2004 and 2011. He retired from the military with 38 years of service in 2011. Col. Dearing was rated as a Command Pilot with over 4300 flying hours. He was well respected and loved by many. Blue skies sir!, you will be greatly missed!

McGhee Tyson ANGB Mass Notification System

Over the past several months, you may have noticed an increase in announcements, computer “pop-ups” and text messages and automated phone calls from the base. The Air Force requires every base to have a Mass Notification System (MNS) as directed by AFI 10-2501 and AFI 10-206. MNS is a powerful tool that can be used by the Command Post, Security Forces, or Emergency Management personnel to deliver the right information to the right people at the right time. McGhee Tyson ANGB has three

components of our MNS that can be used together or independently: Overhead Paging System, Giant Voice, and AtHoc.

1) Overhead Paging System (OHPS) – also known as the “Public Address (PA)”

system. The OHPS is used to distribute information to area, such as The OHPS outdoor towers. Almost any the OHPS by associated using the in the base the 134ARW

recipients in a localized area as a building or section. uses speakers and associated with a zone. user on base can use dialing 6000 and the zone. Instructions for OHPS can be found in the telephone directory on SharePoint.

134 CF Test.

This is a weekly test of the AtHoc Alerting System.

Resp:

2) I have received the alert

+18008231167
ID 4303573172

2) Giant Voice - The purpose of the Giant Voice system is to allow Command Post controllers (or others as designated) to provide immediate notification to the entire base population with information for emergencies such as severe weather, natural disaster warnings or other emergency situations where information needs to be quickly distributed to base personnel. Giant Voice uses all the components of the OHPS, but it transmits on all of them at the same time. An example emergency message would be one for those on the Flight-line with approaching adverse weather. Airmen may hear a pre-recorded or live message saying, "Lightning warning! Immediately clear the area and return to your work sections". In addition to emergency warnings, other features of the giant voice system allow the airing of: flag conditions, mission oriented protective posture levels, alarm conditions, force protection changes, active shooter announcements, etc. Other locally determined information may be broadcast at the base commander's discretion.

3) Distributed Recipient Mass Notification System (DRMNS) – this system is employed through a web-based application known as AtHoc. It is used to distribute important information to personnel who may not be in the local area via texting, email, and phone calls. It can also send messages to all networked computers in a local area. Only certain users have administrator rights to send these messages (i.e. Command Post, SFS, and other designated personnel).

International Holocaust Remembrance Day, April 24th, 2018

Submitted by Tech. Sgt. Stephanie Justus, 134th MEO

In 1933, nine million Jews lived in the countries of Europe that would be occupied by Nazi Germany during the war. The Holocaust was the systematic persecution and murder of approximately six million Jews by the Nazi regime and its collaborators. The Nazis also targeted:

Roma/Sinti or Gypsies, Black people, those with mental and physical disabilities, and Slavic people including Poles and Russians. Other groups were persecuted on political, ideological, and behavioral grounds, among them Communists, Socialists, Jehovah's Witnesses, and homosexuals. Holocaust is a word of Greek origin meaning "sacrifice by fire." Nazis believed they were "racially superior" and that Jews and others were a threat to the German community. By 1945, six million Jews were murdered during the Nazi genocide. This included two million children under the age of 15. In all, 11 million people from these groups were persecuted. Every generation must learn and apply the lessons of the Holocaust to prevent new horrors against humanity from occurring. On International Holocaust Remembrance Day, we acknowledge this dark stain on human history and vow to never let it happen again.

Airmen Need to Certify Records in SGLI Online Enrollment System (SOES)

BUCKLEY AIR FORCE BASE, Colo. - In August 2017 the Air Force began a 12-month notification process, by birth month, and roll-out of the SGLI (Servicemembers' Group Life Insurance) Online Enrollment System (SOES).

Currently the Air Force stands at a 57.36 percent certification completion rate for members whose birthdays fall between Aug. 2, 2017 and Feb. 28, 2018. This number should be at least 95 percent. Also important to note is that members do not, and should not, wait till their birth month to accomplish this.

A key component to the implementation of SOES is the servicemember's certification of his/her SOES record. The initial DMDC data upload creating the record is not considered authoritative until the member reviews and/or updates the coverage elections, beneficiaries, and allocations of shares and certifies the record with an electronic signature.

SOES allows Airmen with full-time SGLI coverage to make online changes to their life insurance coverage and beneficiary information at any time without having to

complete a paper form.

SGLI provides automatic life insurance coverage of \$400,000 to servicemembers upon enlistment, commissioning, or activation to active duty (ARC members on orders for 31 consecutive days or more, or in support of a contingency operation).

Members with SGLI also get automatic coverage for their dependent children and non-military spouses under the Family Servicemembers' Group Life Insurance (FSGLI) program. FSGLI coverage is not automatic for military-to-military marriages on or after Jan. 2, 2013. Those servicemembers must elect FSGLI coverage for their spouse in SOES. Servicemembers can use SOES to manage the amount of their SGLI and spouse coverage (FSGLI) and to name and update beneficiaries.

SOES can be accessed by logging onto www.dmdc.osd.mil/milconnect, signing in, then clicking on "SOES" under the "Benefits" tab. Airmen are encouraged to log in with their CAC or DS Logon as soon as they receive their myPers Birthday Message, if deploying, or a life changing event occurs (e.g. marriage, divorce) to ensure their SGLI/FSGLI coverage and beneficiaries are up-to-date.

If you still need assistance please contact your unit CSS or visit the MPF for guidance on completing the SOES enrollment.

SOES Instructions

1. Sign in to milConnect at <https://www.dmdc.osd.mil/milconnect/>
 2. In the top right corner, select "Sign In"
 3. Select the middle option to log in with your CAC
 4. In the top black banner of the home page, go to "Benefits" and select "Life Insurance (SOES- SGLI Enrollment System)"
 5. Scroll to the bottom of the page and select "Continue"
 6. Select "Yes" or "No" for if the spouse information is correct
 7. The next page will show your current coverage
- NOTE: BEFORE you confirm and certify, ensure the amount is correct; if incorrect, go to "Edit Coverage". Ensure that your beneficiaries transferred over by selecting "Edit Beneficiaries"; if they did not, add who you would like and the percentage you would like them to receive.
8. Once you have completed the above steps, select "Confirm & Certify"
 9. Check all boxes and select "continue"
 10. The next window will pop up a preview of your coverage. ***Ensure you review it for accuracy, then select "Continue"
 11. Provide your electronic signature and continue
